

# > VOX Dead Tank circuit breakers up to 40.5 kV

Schneider Electric's solution for MV Dead tank circuit breakers includes VOX, incorporating vacuum switching technology

## Main characteristics

- Rated normal voltage from up to 40.5 kV.
- Rated normal current from 2000 A.
- Internal Arc Classification 25 kA for 1 second.
- IEC and ANSI certified.
- Sealed for life design.

## Customer benefits

- Proven BLV Vacuum circuit breaker.
- Compact footprint.
- Stainless steel housing and enclosure.
- Up to 6 CT's per on each pole.
- Generously proportioned control cabinet.
